Consultation

Let's discuss your event – the theme, the venue, the colours, the amount of people that will be there – and find the right cake to go with it.

Consultations usually last around 45 - 60 minutes. Please bring along any images or colour samples that you'd like me to use or draw inspiration from and we can discuss how to best keep within your chosen budget. This stage can also be carried out through email if desired, depending on the complexity of the design, not all cakes will require a consultation.
